Dear Sir:

I, Alain Crouzet, of LeTouvet, France, am one of the joint inventors in United States Patent Application Publication No. US2005/0159058 published July 21, 2005.

It is my understanding this patent application publication was used as a reference against U.S. Patent Application No. 10/582,187 filed June 8, 2006, for a Flexible Glass Fiber Weave.

This is to advise the examiner in that application that none of the embodiments in the above-identified patent application publication of which I am an inventor is a product without holes or discontinuities. To the contrary, every embodiment of the mesh disclosed in the aforementioned patent application publication has holes therethrough so that the mesh has an openness factor.

Declarant further sayeth not.

Appl. No. 10/582,187

The undersigned hereby declares that all statements made herein of his/her own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Title 18, United States Code, § 1001 and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Dated this Wednesday day of June 3rd 2010.

Alain Crouzet
